ADDITIONAL BENEFITS AND RIDERS

ACCELERATED DEATH BENEFIT RIDERS¹

Transamerica's Accelerated Death Benefit Rider (ADBR) provides an accelerated death benefit that is paid instead of the cash value or death benefit on an insured's policy. The ADBR can be used to help pay for medical or nursing home expenses resulting from a medical condition from an injury or illness as determined by a physician.

Transamerica's ADBR requires satisfactory proof of the insured's qualifying event while the policy and rider are in force. This calls for a completed request and a physician's statement. We may request additional medical information from the physician who submits the statement.

ACCELERATED DEATH BENEFIT RIDER WITH NURSING HOME BENEFIT (NHB) (Not available in Florida)

Eligibility requirements: The insured is required to be continuously confined in an eligible nursing home for 90 days and have a physician certify that the client will continuously remain there until their passing. Confinement to an eligible institution must be the result of:

- An accident that occurs on or after the effective date of the rider
- A specifically diagnosed illness that first manifests itself more than 30 days following the effective date of the rider

The NHB is not available if the applicant needs assistance in the activities of daily living at the time of application or two years prior to the application.

ACCELERATED DEATH BENEFIT RIDER — FLORIDA ONLY

This rider is available when the insured can reasonably expect death within 12 months of receipt of a physician's statement.

How the Benefit Is Determined

Policy death benefit that would be in force at the end of 12 months following the acceleration date discounted for 12 months

Premiums necessary to provide insurance to the date of the Accelerated Death Benefit payment

BENEFIT AMOUNT

¹Accelerated death benefits will be available when the insured has been diagnosed with a qualifying event, as described in the rider, while the policy and the rider are in force. Benefits advanced under this rider may be subject to taxation. Limitations and exclusions apply. Refer to the rider for complete details.

ALL-DIGITAL APPLICATION AND AGENT DASHBOARD

No matter how you sell — in person or virtually — the *Transamerica FE Express Solution* provides a fast, simple application for greater control and flexibility. Before your client applies, you can quote coverage by premium or death benefit to fit their needs and budget. The quote parameters automatically carry over to pre-fill the application, which may save you and your client time. You can also skip the quote and start an application at any time.

The streamlined digital application is designed to deliver coverage in as fast as 10 minutes. It automatically saves your progress and inputs so you and your client can return to complete it later, if necessary. Your agent dashboard provides a convenient snapshot of your current applications by status so you can efficiently manage your business.

You'll access your agent dashboard from Agent Home. New to Agent Home? Simply activate your Agent Home Page using your agent/producer ID number (referred to as an advisor number).

REAL-TIME UNDERWRITING DECISIONS

There are no invasive underwriting requirements, and the all-digital underwriting engine provides an immediate, consistent, point-of-sale underwriting decision for every application. The application will never be referred to an underwriter. Not sure whether your client will qualify for coverage? No problem. The simple pre-qualification tool can save you time and helps you quote with confidence. The tool is designed to identify common medical conditions and lifestyle information that may result in an adverse underwriting decision or risk class.

UNDERWRITING GUIDELINES

OUR APPROACH

Transamerica and our third-party administrators utilize a digitally enabled underwriting process built to deliver quick, consistent decisions. This process provides a streamlined approach to underwriting risk selection, focusing on applicant-specific data such as personal history, height/weight, and health conditions.

ELECTRONIC MEDICAL DATA

For maximum convenience, the new process prioritizes simplicity when it comes to collecting clients' health information.

- Straightforward personal history and lifestyle questions combined with diagnostic and prescription data direct from the healthcare provider eliminate the need for lengthy, intrusive health questions and traditional medical records.
- All electronic medical data will be ordered through Transamerica and will be administered through Transamericaapproved vendors, safely and securely.

INSURABLE INTEREST

Insurable interest must exist between the proposed insured, policy owner, payer, and beneficiary or beneficiaries. Underwriting reserves the right to make the final determination on the issuance of any policy.

AN APPLICATION IS VALID FOR 60 DAYS

The proposed insured will most likely qualify for GRADED if ...

- They have one medical condition (rated Graded), height/weight are Select, and ALL lifestyle factors are Select OR
- They have more than 1 medical condition (rated Graded) that is not considered a comorbidity or they have multiple nonrelated medical conditions that are each independently (rated Graded).

The proposed insured will most likely be declined if ...

- They have one medical condition or one lifestyle factor that is rated as a Decline OR
- Their height/weight is rated as Decline OR
- They have more than 1 comorbidity
- Lifestyle factors include questions related to alcohol/drug use, driving record, and felonies. See Adult Single Condition Decision Chart for specific Lifestyle ratings.
